

## ROB WARREN'S HAPPY PLACE - BINALONG BAY.

I've been going to this stunningly beautiful place since I was a small kid and about 30 years ago we built a shack over the road from one of the world's best beaches. Our family of four kids grew up spending weeks of school holidays enjoying all sorts of aquatic and beach activities. No TV in the evenings just books, games and music.

And now my grandchildren, just like their parents cannot wait to go "up the shack". Robyn and I just get in the queue to wait our turn or join them if we are invited, which is often, because fortunately I know where the fish are!
